Fall Career Fair Guide

OCTOBER 15, 2019
10:00 am — 2:00 pm
Brown Gym

Information included:

- Handshake Account Info
- List of Career Services/Staff
- Description, URL and Industry of participating companies.
Caltech Career Center Staff

◊ Claire Ralph, Director

◊ Ariel Shoresh, Manager Employer Engagement

◊ Marie Lara, Recruiting Coordinator

◊ James Berk, Counselor & Premed Advising

◊ Garineh Kouredjian, Counselor & Internship Advising
LOCATION:
Student Services Building
Suite 310
(Building 86,87 on map)
To register for a Handshake account, please go to http://www.career.caltech.edu/handshake and follow the directions below, depending on your status at Caltech.

Handshake is the Career Development Center's online platform for recruiting, counseling, and events. This platform uses cutting edge technology to help you easily connect with employers, and source jobs, internships, event information, and on-campus recruiting opportunities. You can also use Handshake to schedule a counseling appointment, sign-up for employer information sessions, CDC workshops and register for career fairs.

Employers can use Handshake as a recruiting tool to identify qualified candidates for open positions and to manage on-campus recruiting activities.

ELIGIBILITY REQUIREMENTS FOR CALTECH HANDSHAKE ACCOUNTS

Caltech students, alumni and Caltech/JPL postdocs may request a Handshake account.

ACCOUNT LOGIN INFORMATION

Caltech Undergraduate and Graduate Students

Log into Handshake using your Caltech Access credentials. You will be directed to Handshake after logging in. For help, please check Handshake's support for students.

Students are encouraged to update their Handshake profile regularly, especially their year-of-study. As with all websites, please consider what information you wish to have public. Always be aware of any updates to privacy opt-out policies, especially as it concerns your particular profile.

Postdocs and Alumni

Postdocs and alumni may create an account using their email address and password. For postdocs, please use your Caltech or JPL email address. Alumni that had student accounts may change their email address to a non-Caltech address, since their access credentials may no longer be valid to log in.

- Handshake log-in tips for alums that had student accounts

NOTE: Some users will see a request for an “SSO Sign-In”. The “Single Sign On” is what we use at Caltech for secure access to our web applications. If you have not yet set one up as a student, you may have to do so now. Please select the “SSO” option when prompted. You will receive an email with a code, which you will enter in the link provided and follow prompts. At that time, your account should be created and will enter the queue for approval by CDC Staff.
Caltech Career Development Center Services

Career Advice
Career counselors can meet with you one-on-one to discuss your plans and help you find a focus. They also introduce you to a wealth of resources in the Center, at Caltech, online, and off-campus. If they can’t answer your question or meet your need, they will connect you with someone who can. The Caltech Alumni Association will put you in touch with Caltech alumni who are happy to help you connect with people and resources relevant to your personal and career aspirations.

Assessment Testing
Are you uncertain about what option to pursue? Have you already chosen an option but aren’t sure where it can take you? Career counselors are trained to administer a variety of career tests that can help you pinpoint careers that suit your interests, values, and personality type. Consult with one of our counselors for more information.

Career Fairs
Do you want to meet lots of employers all at once? The Career Development Center hosts career fairs with 100 hiring organizations each year in the fall and winter.

Employer Information Sessions
The Career Development Center sponsors sessions at which students can meet company recruiters and learn what they have to offer. Frequently these representatives are alumni, and can relate how their experiences at Caltech translated into their current career.

Workshops
The CDC offers workshops on topics such as job search strategies, resume writing, interviewing, graduate and professional school applications, and career-specific panel discussions.

Resume and Cover Letter Critiques
Are you wondering whether you’ve prepared your resume correctly, or have you put off preparing one at all? An appointment with a career counselor can help you learn the basics, from what information to include to what typeface to use.

Job and Internship Listings
You don’t have to confine your job search to newspaper classified ads and online search engines. The Career Center keeps updated lists of full- and part-time jobs, and internships online. Register for a Handshake account and frequently login to view these opportunities.

Recruiting
Recruiters from over 100 business organizations, labs, and government departments often spend a day on campus interviewing students for full-time employment or summer internships. Check your Handshake account to see who will be visiting campus during the coming academic year.

Website and Library
The Career Development Center website (www.career.caltech.edu) and library provide information about career exploration, emerging occupations, salaries, graduate and professional schools, resumes writing, interviewing, company profiles, and a variety of current full-time and summer opportunities.

Services are available to currently enrolled undergraduates, graduate students, and alumni.
Academia.edu
*Other Education*
http://academia.edu
We’re Academia, and our mission is to accelerate the world’s research. Our site accelerates research and supports critical breakthroughs in medicine, science, transportation, and communications by allowing researchers to publish and share their own work.

Our ideal candidates are not only great at what they do, but they also make meaningful impact on our mission. In addition to finding great talent for our tight-knit team, we value fostering employee growth. Our 45-person team values curiosity, initiative, and teamwork. We have a generous, employee-focused benefits program with great perks.

Activision
*Internet & Software*
https://www.activision.com/home
Activision has been changing the way people play video games for the past 40 years as the leading developer and publisher of video games. Our current portfolio includes Call of Duty, Spyro, Sekiro, and Crash Bandicoot.

Our teams have created some of the world’s biggest, most ground-breaking, and beloved entertainment franchises in the industry. Sitting at the intersection of media, technology, and entertainment, our employees are some of the best and brightest across engineering, entertainment, media, and technology. Activision is included in FORTUNE’s "100 Best Companies To Work For", "World's Best Employers," "Most Admired Companies," and "Best Workplace for LGBTQ professionals."

Akuna Capital
*Investment / Portfolio Management*
http://akunacapital.com
Akuna Capital is a young and booming trading firm with a strong focus on cutting-edge technology, data driven decisions and automation. Our core competency is providing liquidity as an options market-maker - meaning we provide competitive quotes that we are willing to both buy and sell. To do this successfully we design and implement our own low latency technologies, trading strategies and mathematical models. The Akuna Team spans across three major departments: development, quantitative, and trading.

Altair Engineering, Inc.
*Internet & Software*
http://www.altair.com
About Altair (Nasdaq: ALTR)

Altair is a global technology company that provides software and cloud solutions in the areas of product development, high performance computing (HPC) and data intelligence. Altair enables organizations across broad industry segments to compete more effectively in a connected world while creating a more sustainable future. To learn more, please visit www.altair.com.
Apple
Electronic & Computer Hardware
http://apple.com/jobs

We're a diverse collection of thinkers and doers, continually reimagining what's possible to help us all do what we love in new ways. The people who work here have reinvented entire industries with the Mac, iPhone, iPad, and Apple Watch, as well as with services, including iTunes, the App Store, Apple Music, and Apple Pay. And the same innovation that goes into our products also applies to our practices - strengthening our commitment to leave the world better than we found it.

So bring your passion, courage, and original thinking and get ready to share it.

Applied Minds, LLC
Other Industries
http://www.appliedminds.com

Founded in 2000, Applied Minds draws on the talents of nearly 150 employees and a network of subject matter experts to innovate by melding art, design, science, and engineering. We help organizations ask the right questions and then provide unexpected, yet powerful solutions. With a passion for inventing the future for our clients, we bring together brilliant and creative people from numerous disciplines into multidisciplinary teams to work on projects such as autonomous systems, command centers, modeling and simulation systems, robotics, spacecraft, UAVs, user experiences, vehicles, and more.

Arena Investors, LP
Investment / Portfolio Management
http://www.arenaco.com/

Arena Investors, LP is a global investment management firm that seeks to generate attractive risk adjusted, consistent and uncorrelated returns by employing a fundamentals based, asset-oriented financing and investing strategy across the entire credit spectrum in areas where conventional sources of capital are scarce.

Asana
Internet & Software
http://www.asana.com

At Asana, we’re building a place where teams align their energies towards common goals. Where there is no work about work. There is only total clarity, energized focus, and frictionless collaboration. Everything from the most immediate details to the big picture are organized and at your fingertips. In every moment, each person knows what they should be doing and why they're doing it.
Auriq Systems, Inc
Internet & Software
https://auriq.com
Founded in 1996, our goal is to help our customers gain visibility into the key performance indicators critical to the success of their business. More than 400 global enterprises, including many Fortune 500, have chosen AuriQ Systems to power their business.

Aurora
Transportation & Logistics
http://www.aurora.tech
Aurora works at the intersection of rigorous engineering and applied machine learning to address one of the most challenging, important, and interesting opportunities of our generation: transforming the way people and goods move.

Founded by three of the world's leaders in the self-driving vehicle industry, we design the software and hardware that will power the next revolution in transportation. We bring partners together to move more quickly than any one company can move alone.

Automatic Data Processing (ADP, LLC)
Human Resources
http://www.adp.com/who-we-are.aspx
We are a comprehensive global provider of cloud-based Human Capital Management (HCM) solutions that unite HR, payroll, talent, time, tax and benefits administration, and a leader in business outsourcing services, analytics and compliance expertise. Our unmatched experience, deep insights, and cutting-edge technology have transformed human resources from a back-office administrative function to a strategic business advantage.

To submit your interest for one of our opportunities, please visit jobs.adp.com

Axonics Modulation Technologies
Medical Devices
http://www.axonicsmodulation.com/
Axonics Modulation Technologies, Inc is a privately-held medical device company developing an innovative neuro-modulation platform based on miniaturized rechargeable technology. The Axonics Sacral Neuromodulation System is the first CE-marked rechargeable SNM system designed to improve the experience of both clinicians and patients suffering from Urinary and Fecal dysfunction.
Bay Area Air Quality Management District

*Environmental Services*

**http://www.baaqmd.gov/**

The Bay Area Air Quality Management District (District) is a regional government agency, committed to achieving clean air to protect the public's health and the environment. The District accomplishes this goal through regulation of industrial facilities and various outreach and incentive programs designed to encourage clean air choices.

The District's jurisdiction encompasses all of seven counties - Alameda, Contra Costa, Marin, San Francisco, San Mateo, Santa Clara and Napa, and portions of two others - southwestern Solano and southern Sonoma.

---

Benchling

*Internet & Software*

**https://benchling.com**

Benchling creates software that makes life science research faster & more collaborative.

Biotech has the potential to solve humanity's most pressing challenges, such as disease, renewable energy, & hunger. The brightest minds are working on these problems but they are equipped with archaic tools. We aspire to fix & increase the rate of scientific output w/ a web-based platform that allows researchers to design & run experiments, analyze data, & share results.

---

BFAM Partners (HK) Ltd

---

**Deeproute.ai**

*Automotive*

https://deeproute.ai/

We are at the threshold of a transportation revolution that will change our world.

Deeproute.ai, an autonomous driving startup, stands for innovation in mobility. Our mission is to provide a self-driving technology that will make our future transportation safer, more convenient and reliable. We focus on Level 4 autonomous driving and have received investment from top tier investors to develop on a global scale. The headquarters of Deeproute are located in Shenzhen and Beijing, China, and Silicon Valley. Please visit deeproute.ai for more information.
**Descartes Labs**  
*Internet & Software*  
http://www.descarteslabs.com

Descartes Labs is a predictive intelligence company that makes a data-agnostic platform for performing global-scale analyses unbound by computing limitations. Descartes Labs is building the world's largest and most diverse data refinery - to bring together all of the data, all of the time. Our supercomputer in the cloud and modeling platform for complex global systems, predict supply and demand factors to give our customers a unique decision advantage so they can move with speed, efficiency, and certainty. Descartes Labs is headquartered in Santa Fe, N.M., and has offices in New York, San Francisco, Washington D.C., Denver, and Los Alamos, N.M.

**eBay**  
*Internet & Software*  
http://www.ebay.com

eBay is the world's leading online marketplace, bringing together a family of brands that connects communities. Built on commerce, trust, and opportunity, the unique companies that form eBay create opportunities for people around the world- often in life-changing ways. We measure success not just on a financial scale, but on our proven ability to support social purpose and instill pride and respect amongst those who interact with us. We believe in serving community members, not customers. And our community begins here with our people. We invite you to learn more, explore opportunities, and discover a place for you.

**Enthought**  
*Scientific and Technical Consulting*  
https://enthought.com/

Enthought is a leading provider of Python-based data analytics and scientific computing solutions. Our software products, training solutions and consulting services are used by customers worldwide to accelerate innovation in a broad array of industries. Our clients include the most recognized names and respected brands in technology, finance, energy, consumer products, and other industries. Enthought is a highly collaborative, low hierarchy place. People that thrive at Enthought are intellectually curious, dedicated to doing quality work, friendly and fun. We value "really smart" and "highly productive" more heavily than any specific degree. Based in Austin TX, Enthought also has offices in Cambridge (UK), Tokyo, Chennai, and Zurich.

**Epirus, Inc.**  
*Defense*  
https://www.epirussystems.com/

Epirus is a venture-backed startup specializing in agile development of advanced defense systems. Our team combines decades of aerospace & defense experience with Silicon Valley innovation in order to address 21st century threats, such as drones and other asymmetric technologies.
Exponent

*Scientific and Technical Consulting*

[http://www.exponent.com](http://www.exponent.com)

Exponent is a leading engineering and scientific consulting firm. Our multidisciplinary team of scientists, engineers, physicians, and regulatory consultants brings together more than 90 different disciplines to solve complicated problems facing corporations, insurers, government entities, associations and individuals. Our approximately 1000 staff members work in 26 offices across the United States and abroad. Exponent has over 800 consultants, including more than 500 that have earned a doctorate in their chosen field of specialization.

ExxonMobil Corporation

*Oil & Gas*

[http://www.exxonmobil.com](http://www.exxonmobil.com)

Every day, employees at ExxonMobil are committed to the pursuit of operational excellence. We do this by delivering safe, reliable operations, improving energy efficiency, and maintaining strong business controls. We believe that maximizing the value of resources - through disciplined investments, developing breakthrough technologies, improving processes, and integrated operations - generates the most benefit for resource owners, society, and our shareholders.

Facebook

*Internet & Software*

Facebook's mission is to give people the power to build community and bring the world closer together. Through our family of apps and services, we're building a different kind of company that connects billions of people around the world, gives them ways to share what matters most to them, and helps bring people closer together. Whether we're creating new products or helping a small business expand its reach, people at Facebook are builders at heart. Our global teams are constantly iterating, solving problems, and working together to empower people around the world to build community and connect in meaningful ways. Together, we can help people build stronger communities - we're just getting started.

Factual

*Internet & Software*

[http://www.factual.com](http://www.factual.com)

Factual is the location data company the world's most valuable brands and technology companies trust to understand and intelligently grow their businesses. We help engineering teams, marketers and data analysts build the best digital products, deliver more impactful marketing and transform their businesses with the most accurate and comprehensive data on places and people worldwide.
Forza Silicon Corporation

*Electronic & Computer Hardware*

Forza Silicon is a global leader in fabless semiconductor design, specializing in analog/mixed-signal and highly sensitive, advanced CMOS image sensors for visible and infrared digital camera applications. Forza Silicon's Custom IC Design and Integrated Production Services model offers a complete end-to-end solution from circuit design to the delivery of highly reliable production parts. Our consultative approach with clients, combined with our deep understanding of CMOS imaging technology and proven design process minimizes risk and reduces production costs, while providing state-of-the-art designs that accelerate time-to-market.

Fulfil Solutions, Inc.

*Manufacturing - Other*

[http://www.fulfil.ai](http://www.fulfil.ai)

Fulfil is a VC funded startup located in Menlo Park. Currently in stealth mode - if any job postings interest you, please contact for more information.

Giant.AI

*Electronic & Computer Hardware*

[https://www.giant.ai/](https://www.giant.ai/)

Something big is coming.

Goldman Sachs

*Investment Banking*

The Goldman Sachs Group, Inc. is a leading global investment banking, securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and high-net-worth individuals. Founded in 1869, the firm is headquartered in New York and maintains offices in all major financial centers around the world.
Google, Inc.

*Internet & Software*

[https://careers.google.com/students/](https://careers.google.com/students/)

Google is not a conventional company, and we don’t intend to become one. Googlers thrive in small, focused teams and high-energy environments, believe in the ability of technology to change the world, and are as passionate about their lives as they are about their work. For more information, visit [www.google.com/careers](http://www.google.com/careers).

At Google, we don’t just accept difference - we celebrate it, we support it, and we thrive on it for the benefit of our employees, our products and our community. Google is proud to be an equal opportunity workplace. Interested to learn more about diversity at Google? Find out more at [http://www.google.com/diversity/](http://www.google.com/diversity/).

Gotion, Inc.

*Research*

[https://www.gotion.com](https://www.gotion.com)

Gotion Inc. is headquartered in the Silicon Valley of California with sites in Ohio, China, Japan and Europe. It is a fast growing company that aims to innovate in the electric vehicle technology (lithium batteries and related systems) with the goal of accelerating electrified transportation and achieving sustainable development. Gotion is powered by GuoXuan High-Tech, a global leading power battery technology company that supplies batteries for vehicles including the world’s first mass commercial e-bus line.

Green Hills Software

*Computer Networking*

[http://www.ghs.com](http://www.ghs.com)

The world is built with Green Hills Software, from secure cell phones to airliner flight systems. Green Hills Software is the leading provider of software tools and operating systems used to build high-reliability systems that millions of people depend on daily. When you drive a car, send a message, or board a plane, you rely on our work.

Our operating systems never fail and cannot be hacked. Our compilers produce the highest-performance code. With our debugger, programmers solve bugs in minutes that otherwise take weeks. Our hiring process is intense and selective, resulting in elite teams of engineers who change the world.

HBD Industries

*Manufacturing - Other*

California Drop Forge produces closed-die forgings and machined components from titanium, stainless steel, and other exotic metal alloys. We manufacture precision forgings and components ranging from less than 2 lbs to over 1,000 lbs.
HRL Laboratories, LLC
Other Industries
http://www.hrl.com
For more than 70 years, HRL's scientists and engineers have been on the leading edge of technology, conducting pioneering research, providing real-world technology solutions, and advancing the state of the art. We continue to be recognized as one of the world's premier physical science and engineering research laboratories.

Our research collaborations are realizing groundbreaking advances in ultra-high-performance circuitry, robust computing and communications, automated data extraction, and innovative architected materials. Our technologies operate in space, on aircraft, in automobiles, and in a variety of consumer products. These technologies make us safer, support our national security and improve our quality of life.

IMC Trading
Other Industries
https://www.imc.com/us/
IMC OVERVIEW:

IMC Trading is among the world's leading proprietary trading firms, and a market maker in securities listed on exchanges across the globe. Our cutting-edge technology drives everything we do.

Today, IMC Trading is 500+ people working together to build software and trade financial products in our offices in Amsterdam, Chicago and Sydney. What does this mean for you? The chance to join a multi-national, multi-cultural team of exceptional individuals, focused on making IMC the world's best trading firm.

IMPCO Technologies
Manufacturing - Other
http://www.impco.com
IMPCO Technologies is a world leader in the manufacture of alternative fuel systems for the automotive, industrial and power generation markets. Not only are we a high-powered growth organization making dynamic products, We're also helping to make the world a better place to live.

Infosys
Internet & Software
http://www.infosys.com
Infosys is a global leader in technology services and consulting. We enable clients in 46 countries to create and execute strategies for their digital transformation. From engineering to application development, knowledge management and business process management, we help our clients find the right problems and to solve them effectively. Our team of 229,000+ innovators, across the globe, is differentiated by the imagination, knowledge and experience, across industries and technologies.
Intuitive Surgical
*Medical Devices*

[http://www.intuitivesurgical.com](http://www.intuitivesurgical.com)

Joining Intuitive Surgical means joining a team dedicated to using technology to benefit patients by improving surgical efficacy and decreasing surgical invasiveness, with patient safety as our highest priority.

**MemVerge, Inc**

*Internet & Software*

[http://www.memverge.com](http://www.memverge.com)

MemVerge is a startup developing next generation data infrastructure based on Non-Volatile Memory technologies. It promises to converge memory and storage into a single system, and redefine the data center architecture for big data and machine learning. The founders came from Caltech, and were successful entrepreneurs who had created market-leading all flash arrays and hyperconverged systems.

**Meso Scale Diagnostics**

*Biotech & Life Sciences*

Founded in 1995, Meso Scale Discovery (MSD) is a global leader in the development, manufacture, and commercialization of innovative assays and instruments for the measurement of molecules in biological samples. MSD’s proprietary MULTI ARRAY technology enhances medical research and drug development by enabling researchers to profile many biomarkers simultaneously in a single sample without compromising assay performance. MSD’s technology has been widely adopted by researchers in pharmaceutical companies, government institutions, universities, and clinical laboratories worldwide for its high sensitivity, excellent reproducibility, and wide dynamic range.

**Miso Robotics**

*Internet & Software*

[http://www.misorobotics.com](http://www.misorobotics.com)

We are on a mission to develop robotics and AI technology that assists and empowers chefs to make food consistently and perfectly, at prices everyone can afford.

**MIT Lincoln Laboratory**

*Research*

[http://www.ll.mit.edu](http://www.ll.mit.edu)

At MIT Lincoln Laboratory, diverse teams of technical experts develop innovative solutions with real impact on U.S. national security. If you are an agile thinker, excited by the freedom to develop novel ideas and the opportunity to take concepts to the prototype stage, Lincoln Laboratory offers abundant opportunities and resources.
MITRE

Research

http://www.mitre.org/

MITRE Corporation is a not-for-profit organization chartered to work in the public interest. As a national resource, we apply our expertise in systems engineering, information technology, operational concepts, and enterprise modernization to address our sponsors' critical needs.

MITRE, a 10 time Fortune "100 Best Companies to Work For", is a not-for-profit system engineering firm chartered to work in the public interest. We take on the nation's most difficult and critical challenges in defense, aviation, enterprise modernization, and national security.

NASA Jet Propulsion Laboratory

Aerospace

http://jpl.nasa.gov/opportunities/

Formed in 1936, NASA Jet Propulsion Laboratory helped open the Space Age by developing America's first Earth-orbiting science satellite, creating the first successful interplanetary spacecraft, and sending robotic missions to the solar system. Today JPL continues its world-leading innovation, implementing programs in planetary exploration, Earth science, space-based astronomy and technology development.

Naval Research Enterprise Internship Program (NREIP)

Defense

http://nreip.asee.org

The Naval Research Enterprise Internship Program (NREIP) provides an opportunity for students to participate in research at a Department of Navy (DoN) laboratory during the summer.

The goals of NREIP are to encourage participating students to pursue science and engineering careers, to further education via mentoring by laboratory personnel and their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN.

NREIP provided competitive research internships to approximately 560 college students last summer.

Neato Robotics, Inc.

Electronic & Computer Hardware

https://www.neatorobotics.com

Neato Robotics is developing technology at the forefront of robotics & artificial intelligence.

Our products are designed to free people from household chores and will change how we all look at housekeeping tasks. Our products, the award-winning Neato family of autonomous robotic vacuums, have set new standards for intelligence, ease of use and cleaning effectiveness. The products have been available in retail and online in the U.S. since 2010, and more recently in Europe and Asia. And they are only the first few of many new products to come.
At Omniscience, we are building a platform to transform the insurance industry. We are a Machine Learning first company, building business systems from the ground up based on a broad range of AI and traditional technologies including Deep Learning, Decision Trees, NLP, and Rule Systems, all with explainability built in.

OpenX creates quality programmatic advertising markets that drive superior monetization for publishers and optimal value for brands. As monetization partners to more than 1,200 publishers worldwide, OpenX has the largest knowledge base of publishers needs and trends. Our robust global technology infrastructure that ensures full reliability for all ad formats across all digital environments.

Oracle is a world leader in tackling the most demanding and far-reaching technology challenges of today: big data, cloud computing, engineered systems, social computing, mobile, security, analytics, next-generation databases, end-to-end virtualization, and much more. Our business is information: how to manage it, use it, share it, and protect it. Oracle provides the world's most complete, open, and integrated solutions to run any business. We can solve just about any business need you can imagine. No matter what your interests are, you will find challenging opportunities to develop your exciting career here at Oracle.

Pacific Northwest National Laboratory advances the frontiers of knowledge, taking on some of the world's greatest science and technology challenges. Distinctive strengths in chemistry, earth sciences, and data analytics are the heart of our science mission, laying a foundation for innovations that improve America's energy resiliency and enhance our national security.
Putnam Associates
Management Consulting
http://www.putassoc.com/
Putnam Associates is a premier strategy consulting firm serving biopharmaceutical, diagnostics, medical device clients and the private equity / venture capital community. For over 25 years, we have provided objective, high impact strategic advice and analytical services, helping to support clients in crucial business decisions at all stages of the product and franchise lifecycle. We are driven by a tremendous commitment to our clients and consistently deliver exceptional work and superior insights. Our credibility is measured by the formation of trusted, team oriented relationships. From back office to boardroom, warehouse to storefront, desktop to mobile device, SAP empowers people and organizations to work together more efficiently. At SAP you will have access to the type of mentoring and hands-on experience that is the foundation of a distinguished career. Whether you are studying technology, business, or something else, if you're looking for the opportunity to stand out, look into SAP!

Second Spectrum

Internet & Software

http://www.secondspectrum.com

Second Spectrum is building the next way of seeing sports.

* We produce the most accurate tracking data with the fastest high-quality output by leveraging the most automated and extensible solution in the market. We are the official tracking and analytics partner of the NBA and EPL.
* We generate meaningful and accurate data in the language of sport. Nearly every team in the NBA and ESPN uses our analytics and video platforms.
* We create cutting edge software and communication tools so we can deliver personalized and interactive technologies for leagues, managers, players, media and fans.

ServiceNow

Internet & Software

http://www.servicenow.com/careers

ServiceNow is the fastest-growing enterprise cloud software company in the world above $1 billion (2018 revenue was $2.6 billion, up 36% year over year). We deliver digital workflows that create great experiences and unlock productivity to approximately 5,400 enterprise customers worldwide, including almost 75% of the Fortune 500.

As a purpose-driven company, making work, work better for people guides everything we do.

For more information, visit: https://www.servicenow.com/careers
Sonder, Inc.
*Hotels & Accommodation*

http://www.sonder.com
When you travel with Sonder, you get an authentic local experience plus the comforts of hotel hospitality; crisp linens, professional cleaning, high-speed Wi-Fi, and 24/7 concierge service. It's travel made tranquil.

We believe that travel has the potential to be a truly transformative, life-changing experience. Our mission is to inspire these unforgettable moments of discovery and joy. Our vision is to build the future of hospitality.

Spatial Genomics
*Biotech & Life Sciences*

http://www.seqfish.com
Spatial Genomics is a Caltech startup that is pioneering new frontiers in genomics. Based on extensive academic research, we are developing technologies to make spatial, single cell gene expression profiling broadly accessible. Join us as we enable new discoveries in basic research and medicine.

SprintRay Inc.
*Electronic & Computer Hardware*

https://sprintray.com
SprintRay is a technology company that designs, manufactures, and supports 3D printers with an emphasis on digital dentistry. Our products empower dentists to provide faster, higher-quality care to their patients. SprintRay is the only 3D printing company that provides a complete user experience for dentists and digital dentistry, from product to long-term support and education. SprintRay designs and offers a complete ecosystem of hardware, software, and materials that work in sync to create a seamless user experience. This unique position allows us to focus on helping our customers, particularly dentists, harness 3D printing to improve the lives of their patients.

Street Simplified LLC
*Internet & Software*

http://streetsimplified.com/
Street Simplified is a startup founded by Caltech Alums with the goal of making intersections safer and smarter. We use computer vision, machine learning, and distributed optimization to help make intersections more efficient. Our first product uses cameras to identify why crashes happen and how to prevent them. Not many companies can say that the work they do saves lives!
Supplyframe

Internet & Software
http://www.supplyframe.com

We're a technology company on a mission to change the way Engineers collaborate, design and manufacture hardware.

Our team is composed largely of Computer Scientists, Web Developers, and Data Scientists. We believe that there are few things in the world that can match the excitement of building tools for fellow Engineers and Hackers alike. We primarily focus on challenges in Information Retrieval and Vertical Search (parts.io, findchips.com), Supply Chain Analytics (quotefx.com) and Project Collaboration (hackaday.io). We're also home to the world's largest hacker/maker community, Hackaday.com.

Supplyframe is based in Pasadena, CA with offices in San Francisco, Austin, Shanghai, and Belgrade.

Tala

Commercial Banking & Credit
http://www.tala.co

Tala's mission is to expand financial access, choice, and control to the 3 billion people who are financially underserved around the world. To do so, Tala is rebuilding the global financial system for underserved populations. Our first product is a mobile app that allows anyone with an android smartphone to apply for a loan and receive an instant decision, regardless of their credit history.

Terray Therapeutics

Biotech & Life Sciences
http://terraytherapeutics.com/

Terray Therapeutics is a venture backed biotechnology company headquartered in Pasadena, California. Terray utilizes a novel spatially encoded screening and optimization platform to develop treatments for historically intractable causes of human disease. The Company's platform technology has the industry's highest throughput capacity, broadest target applicability and most comprehensive data output. Our internal development programs are focused on oncology and immunology. In addition to these programs we also work with leading pharmaceutical companies.
