- List of Career Services/Staff
- Description, URL and Industry of participating companies
Caltech Career Center Staff

- Claire Ralph, Director
- Ariel Shoresh, Manager Employer Engagement
- Marie Lara, Recruiting Coordinator
- James Berk, Counselor & Premed Advising
- Garineh Kouredjian, Counselor & Internship Advising
LOCATION:
Student Services Building
Suite 310
(Building 86,87 on map)
To register for a Handshake account, please go to http://www.career.caltech.edu/handshake and follow the directions below, depending on your status at Caltech.

Handshake is the Career Development Center's online platform for recruiting, counseling, and events. This platform uses cutting edge technology to help you easily connect with employers, and source jobs, internships, event information, and on-campus recruiting opportunities. You can also use Handshake to schedule a counseling appointment, sign-up for employer information sessions, CDC workshops and register for career fairs.

Employers can use Handshake as a recruiting tool to identify qualified candidates for open positions and to manage on-campus recruiting activities.

**ELIGIBILITY REQUIREMENTS FOR CALTECH HANDSHAKE ACCOUNTS**

Caltech students, alumni and Caltech/JPL postdocs may request a Handshake account.

**ACCOUNT LOGIN INFORMATION**

**Caltech Undergraduate and Graduate Students**

Log into Handshake using your Caltech Access credentials. You will be directed to Handshake after logging in. For help, please check Handshake's support for students.

Students are encouraged to update their Handshake profile regularly, especially their year-of-study. As with all websites, please consider what information you wish to have public. Always be aware of any updates to privacy opt-out policies, especially as it concerns your particular profile.

[UG / Grad Student Login](#)

**Postdocs and Alumni**

Postdocs and alumni may create an account using their email address and password. For postdocs, please use your Caltech or JPL email address. Alumni that had student accounts may change their email address to a non-Caltech address, since their access credentials may no longer be valid to log in.

- [Handshake log-in tips for alums that had student accounts](#)

[Postdoc and Alumni Login](#)

**NOTE:** Some users will see a request for an “SSO Sign-In”. The “Single Sign On” is what we use at Caltech for secure access to our web applications. If you have not yet set one up as a student, you may have to do so now. Please select the “SSO” option when prompted. You will receive an email with a code, which you will enter in the link provided and follow prompts. At that time, your account should be created and will enter the queue for approval by CDC Staff.
Caltech Career Development Center Services

Career Advice
Career counselors can meet with you one-on-one to discuss your plans and help you find a focus. They also introduce you to a wealth of resources in the Center, at Caltech, online, and off-campus. If they can’t answer your question or meet your need, they will connect you with someone who can. The Caltech Alumni Association will put you in touch with Caltech alumni who are happy to help you connect with people and resources relevant to your personal and career aspirations.

Assessment Testing
Are you uncertain about what option to pursue? Have you already chosen an option but aren’t sure where it can take you? Career counselors are trained to administer a variety of career tests that can help you pinpoint careers that suit your interests, values, and personality type. Consult with one of our counselors for more information.

Career Fairs
Do you want to meet lots of employers all at once? The Career Development Center hosts career fairs with 100 hiring organizations each year in the fall and winter.

Employer Information Sessions
The Career Development Center sponsors sessions at which students can meet company recruiters and learn what they have to offer. Frequently these representatives are alumni, and can relate how their experiences at Caltech translated into their current career.

Workshops
The CDC offers workshops on topics such as job search strategies, resume writing, interviewing, graduate and professional school applications, and career-specific panel discussions.

Resume and Cover Letter Critiques
Are you wondering whether you’ve prepared your resume correctly, or have you put off preparing one at all? An appointment with a career counselor can help you learn the basics, from what information to include to what typeface to use.

Job and Internship Listings
You don’t have to confine your job search to newspaper classified ads and online search engines. The Career Center keeps updated lists of full- and part-time jobs, and internships online. Register for a Handshake account and frequently login to view these opportunities.

Recruiting
Recruiters from over 100 business organizations, labs, and government departments often spend a day on campus interviewing students for full-time employment or summer internships. Check your Handshake account to see who will be visiting campus during the coming academic year.

Website and Library
The Career Development Center website (www.career.caltech.edu) and library provide information about career exploration, emerging occupations, salaries, graduate and professional schools, resumes writing, interviewing, company profiles, and a variety of current full-time and summer opportunities.

Services are available to currently enrolled undergraduates, graduate students, and alumni.
BallerTV, Booth 45  
http://www.ballertv.com  
Sports & Leisure  
BallerTV live streams sports at scale and our goal is to build the world's largest sports network. We are on a mission to connect families and communities everywhere through the unifying power of live sports.

Cadence Design Systems, Booth 44  
http://www.cadence.com  
Electronic & Computer Hardware  
Cadence is the only company that provides the expertise and tools, IP, and hardware required for the entire electronics design chain, from chip design to chip packaging to boards and to systems. We enable electronic systems and semiconductor companies to create innovative products that transform the way people live, work, and play. Our products are used in mobile, cloud datacenter, automotive, aerospace, IoT, industrial and more!

Calico Life Sciences, Booth 1  
http://www.calicolabs.com/  
Biotech & Life Sciences  
Calico is a research and development company whose mission is to harness advanced technologies to increase our understanding of the biology that controls lifespan. We will use that knowledge to devise interventions that enable people to lead longer and healthier lives. Executing on this mission will require an unprecedented level of interdisciplinary effort and a long-term focus for which funding is already in place.

Caltech IMSS, Booth 36  
https://www.imss.caltech.edu/  
Information Technology  
The Information Management Services and Support (IMSS) department provides a wide range of computing support and resources for the Caltech campus, including email and calendar services, business applications, voice and data networks, information security, and digital media services.

https://www.ida.org

Defense
The Institute for Defense Analyses is a nonprofit organization providing government agencies with high-quality, objective analyses of national security issues. Whether you're a graduate student starting your career or a professional looking for your next challenge, we offer exciting opportunities to learn and grow. We seek a variety of disciplines including CS, IT, mathematics, chemistry, physics, operations research, aero/astronautical engineering, mechanical or electrical engineering, materials science, statistics, economics, as well as social & behavioral sciences.

Iris Technology, Corporation, Booth 32
https://www.iristechnology.com/

Aerospace
Iris Technology was founded in 1986 to develop mission-critical components and solutions in collaboration with strategic aerospace and defense industry partners.

iRobot, Booth 35

Electronic & Computer Hardware
We are the leading global consumer robot company, designing and building robots that empower people to do more, both inside and outside of the home. Founded by MIT roboticists who had the vision of making practical robots a reality, iRobot is committed to fostering invention, discovery and technological exploration in the pursuit of practical and valuable robot products for the home.

IXL Learning, Booth 34
https://www.ixl.com/company/jobs

K-12 Education
IXL Learning is a leading educational technology company on a big mission: delivering an immersive learning experience to all students, in all grades and subjects, in schools and homes worldwide. With 1 in 8 U.S. students already learning on IXL (answering over 50 million questions every day!), IXL inspires educators and learners around the world, and is changing how students feel about learning and about themselves.
JASR Systems, Booth 50
http://www.jasr.systems
Research
JASR Systems is a San Diego-based company focused on the development and commercialization of advanced remote sensing and navigation technologies. Our team of scientists and engineers have extensive experience creating innovative technologies and generating commercial products from basic research.

Keck Graduate Institute, Booth 26
http://www.kgi.edu
Higher Education
KGI offers a number of innovative programs that integrate life sciences, pharmacy, genetics, engineering, and business with a focus on industry projects, internships, and team collaborations. Exposure to the biotech and pharmaceutical industries is woven throughout all of our programs, giving students unique opportunities in research, industry, and healthcare.

KLA Corporation, Booth 27
https://careers.kla-tencor.com/
Manufacturing - Other
At KLA, we’re making technology advancements that are "bigger and tinier" than the world has ever seen. We research, develop, and manufacture the world’s most advanced inspection and measurement equipment for the semiconductor & nanoelectronics industries. We enable the digital age by pushing the boundaries of technology, creating tools capable of finding defects smaller than a wavelength of visible light. We create smarter processes so that technology leaders can manufacture high-performance chips faster and better.

L.E.K. Consulting, Booth 16
http://www.lek.com
Management Consulting
L.E.K. Consulting is a premier strategy consulting firm. We're passionate about helping our clients succeed with breakthrough insights that drive impact. Our approach is grounded in deep industry expertise, rigorous analysis, & a commitment to driving practical results that exceed clients' expectations. This strategy drives L.E.K.'s robust growth, giving us global scale with a small-firm feel.
Lifescience Dynamics, Booth 25  
http://www.lifesciencedynamics.com  
Scientific and Technical Consulting  
Lifescience Dynamics is a decision support firm working across three practice areas: Market Research, Competitive Intelligence, and Market Access, Pricing & Reimbursement. We seek exceptional talent to join our entrepreneurial and friendly company in headquartered in London with offices in Boston, New York and San Francisco.

LitePoint Corporation, Booth 24  
http://www.litepoint.com  
Other Industries  
LitePoint creates wireless test solutions & services for the world's most innovative wireless device makers, helping them ensure their products perform for demanding consumers. A lead innovator in wireless testing, LitePoint products come ready to test the most widely used wireless chipsets in the world. LitePoint works with makers of smartphones, tablets, PCs, wireless access points and chipsets. We are also at the forefront of testing the world of connected devices: the Internet of Things. We are headquartered in Silicon Valley, CA and have offices around the world.

MathWorks, Booth 49  
http://www.mathworks.com/jobs  
Internet & Software  
MathWorks develops MATLAB and Simulink software that transforms the way engineers and scientists think and work. Every member of our team, from marketing to sales & support to business operations to engineering & development, contributes to delivering the software that shapes the things we all rely on daily. Our users are advancing the world of engineering and science. And we help them do it.  
Bring your curiosity, drive, and energy - come work with us!

Officer Programs, Navy Recruiting District Los Angeles, Booth 53  
https://nupocaccessions.blogspot.com/  
Defense  
Want to simultaneously join the Navy and one of the top nuclear programs? The Navy Nuclear Propulsion Officer Candidate (NUPOC) program offers college scholarship money & regular monthly income while you're in school (up to $5,300 a month). Through this program, you'll have the life of a regular college student, with no service obligations to the Navy until you graduate. Upon graduation, you'll start your career right away as a Navy Nuclear Officer, with advanced training opportunities and leadership responsibilities.
Oracle, Booth 17
http://oracle.com/campus
Internet & Software
Oracle is a world leader tackling the most demanding, far-reaching technology challenges of today: big data, cloud computing, engineered systems, social computing, mobile, security, analytics, next-gen databases, end-to-end virtualization, and more. Our business is information - how to manage it, use it, share it, & protect it. Oracle provides the world's most complete, open, and integrated solutions. We solve just about any business need you can imagine. No matter your interests, you will find challenging opportunities to develop your career at Oracle.

Putnam Associates, Booth 22
http://www.putassoc.com/
Management Consulting
Putnam Associates is a premier strategy consulting firm serving biopharm, diagnostics, medical device clients and the private equity/VC community. For 25 years, we have provided high impact strategic advice & analytical services, supporting clients in crucial business decisions at all stages of product/franchise lifecycle. With a tremendous commitment to our clients, we deliver exceptional work and superior insights. We have been working with many clients for over a decade, even as we add new clients.

Retina AI Inc, Booth 21
http://retina.ai
Internet & Software
Retina is a venture-backed startup located in Santa Monica, CA, that brings the power of artificial intelligence to the single most valuable metric for marketers: customer lifetime value. Using insights from Retina, companies like Dollar Shave Club, Chegg, and other eCommerce disruptors have already recognized opportunities to optimize their marketing mix based on our highly accurate long-term customer value and cost per acquisition modeling.

Skydio, Booth 23
http://www.skydio.com
Electronic & Computer Hardware
Founded in 2014 and headquartered in Redwood City, CA, Skydio is a self-flying robotics company from the co-founders of Google[X]'s Project Wing. The core of our system is the computer vision algorithms that allow drones to understand the world around them. This technology will ultimately enable many of the most valuable drone applications for consumers and businesses over the coming years.
**SprintRay Inc., Booth 10**  
https://sprintray.com  
*Electronic & Computer Hardware*  
SprintRay is a technology company that designs, manufactures, and supports 3D printers with an emphasis on digital dentistry. Our products empower dentists to provide faster, higher-quality care to their patients. SprintRay designs and offers a complete ecosystem of hardware, software, and materials that work in sync to create a seamless user experience. This unique position allows us to focus on helping our customers, particularly dentists, harness 3D printing to improve the lives of their patients.

**Supplyframe, Booth 11**  
http://www.supplyframe.com  
*Internet & Software*  
We’re a technology company on a mission to change the way Engineers collaborate, design and manufacture hardware. Our team is composed largely of Computer Scientists, Web Developers, and Data Scientists, with a passion for crafting beautiful, data-driven User Experiences and love of solving hard problems. We believe that there are few things in the world that can match the excitement of building tools for fellow Engineers and Hackers alike.

**Takeda Pharmaceuticals, Booth 12**  
http://www.takedajobs.com  
*Pharmaceuticals*  
Takeda is a global, values-based, R&D-driven biopharmaceutical leader headquartered in Japan, committed to bringing Better Health and a Brighter Future to patients by translating science into highly-innovative medicines. Takeda focuses its R&D efforts on four therapeutic areas: Oncology, Rare Diseases, Neuroscience and Gastroenterology (GI). We also make targeted R&D investments in Plasma-Derived Therapies and Vaccines.

**Teledyne Technologies, Booth 13**  
http://www.teledyne.com  
*Scientific and Technical Consulting*  
Teledyne provides enabling technologies for industrial growth markets. We have evolved from a company that was primarily focused on aerospace and defense to one that serves multiple markets that require advanced technology and high reliability. These markets include deepwater oil and gas exploration & production, oceanographic research, air and water quality environmental monitoring, factory automation and medical imaging.
Terray Therapeutics, Booth 14
http://www.terraytherapeutics.com

Biotech & Life Sciences

Terray Therapeutics is a venture backed biotechnology company in Pasadena, California. Terray utilizes a novel spatially encoded screening and optimization platform to develop treatments for intractable causes of human disease. Our platform technology has the industry's highest throughput capacity, broadest target applicability and most comprehensive data output. Our int. development programs are focused on oncology and immunology. We also work with pharmaceutical companies.

Tyvak, Booth 15
http://www.tyvak.com

Aerospace

Tyvak is the world’s leading provider and innovator of nano- and micro-satellites. Headquartered in Irvine, CA, we provide end-to-end satellite solutions to governments, commercial organizations, and universities. We are space geeks. We are hard-workers. We embrace innovation and new ideas. It is who we are and our company culture. We are looking for more people like ourselves. If you want to join us on our mission, please apply to some of the roles we have open.

UCLA MS Financial Engineering/MSOL Program, Booth 33
http://www.ucla.edu

Higher Education

UCLA Anderson's Master of Financial Engineering Program: Why an MFE degree?
* Challenge Yourself! * Learn how to apply your quantitative skills in the financial markets
* Gain specialized knowledge and sought-after skills to advance your career
The finance industry needs people who possess deep mathematical modeling skills/computational expertise. We those needs by merging mathematical & statistical tools with finance theory to equip our students for a highly rewarding career.

US Department of State, Booth 19
https://careers.state.gov

Government - Local, State & Federal

As the lead U.S. foreign affairs agency, the U.S. Department of State represents the United States at more than 270 diplomatic locations around the world, including embassies, consulates, and missions to international organizations. The Department offers a number of programs, including internships, fellowships, and full time career opportunities (overseas, in Washington, D.C. and in other cities throughout the United States).
